Logging In

Potter Park Docents can access the San Diego Global Academy via the following link:

<https://collabration.net/login/potterparkzoovolunteers>

The screenshot shows the login page for the Potter Park Zoo Volunteer Connection. At the top, the logo for Potter Park Zoo is displayed next to the text "Volunteer Connection". Below the logo is a progress bar with four steps: 1. Create, 2. Login, 3. Register, and 4. Done. The "Login" step is currently active. The main content area features a "Welcome to Learning 2.0" heading and a description of the Collaborative Learning Environment. To the right, there is a "LOG IN" section with input fields for "Email" and "Password", a "Forgot Password?" link, and an "Enter" button. Below this is an "OR" separator and a "Register Now" button. At the bottom, there is a copyright notice for 2014 Cypherworx Inc. and a footer with a URL and phone number.

Welcome to Learning 2.0

The Potter Park Zoo Volunteer Connection Collaborative Learning Environment® provides an interactive peer-to-peer learning environment to allow you to communicate, spread ideas, share resources, discuss topics and learn in a safe environment.

- Access interactive training such as individual courses, instructor-led classes, and specialized webinars with complete results reporting
- Interact with like-minded professionals as you learn together in team-based projects
- Organizations can create their own private networks and give their staff access to unique training opportunities

The Potter Park Zoo Volunteer Connection Collaborative Learning Environment® provides an interactive peer-to-peer learning environment to allow you to communicate, spread ideas, share resources, discuss topics and learn in a safe environment.

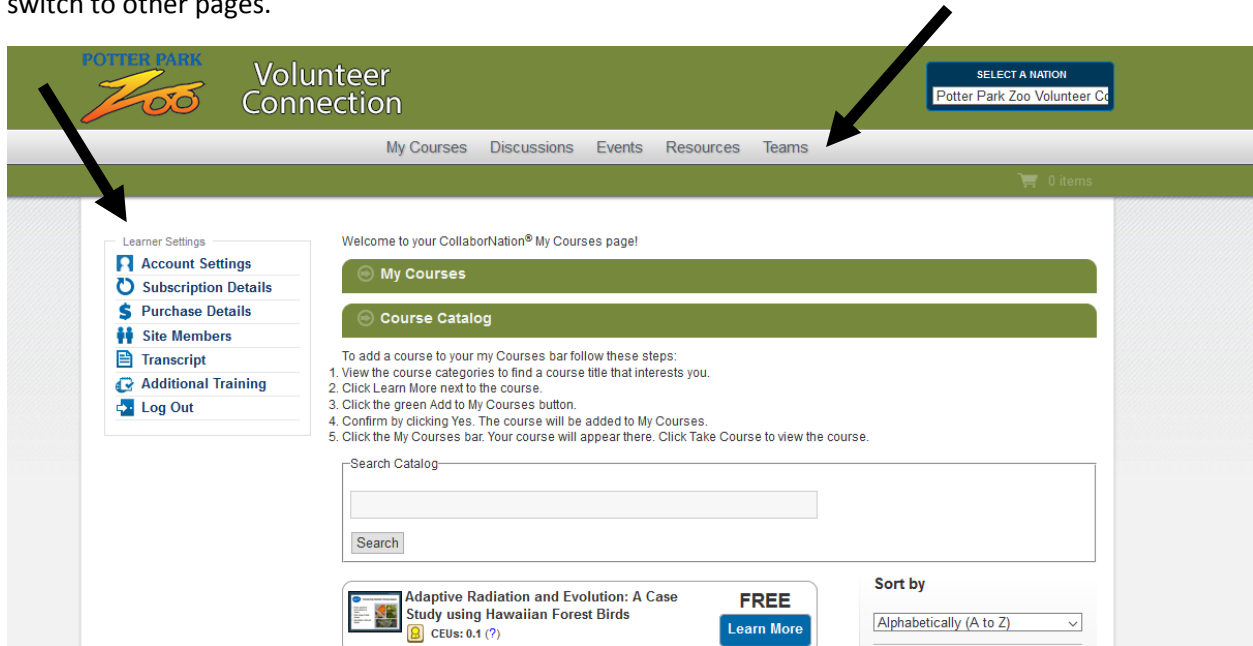

Tip: Newer versions of Internet Explorer and Google Chrome don't seem to work well with this site—Mozilla Firefox seems to work the best.

This is the **My Courses** page, which can be used to select courses to complete online.

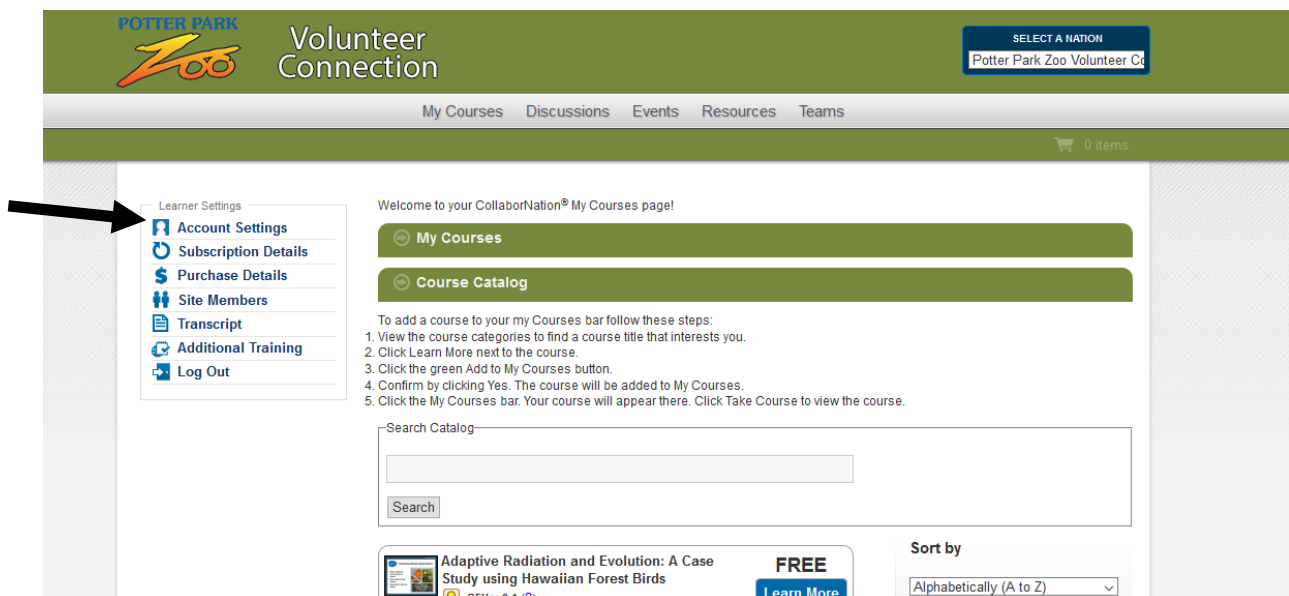

Navigating

The menu bar across the top of the page or the list bar on the left side of the page may be used to switch to other pages.

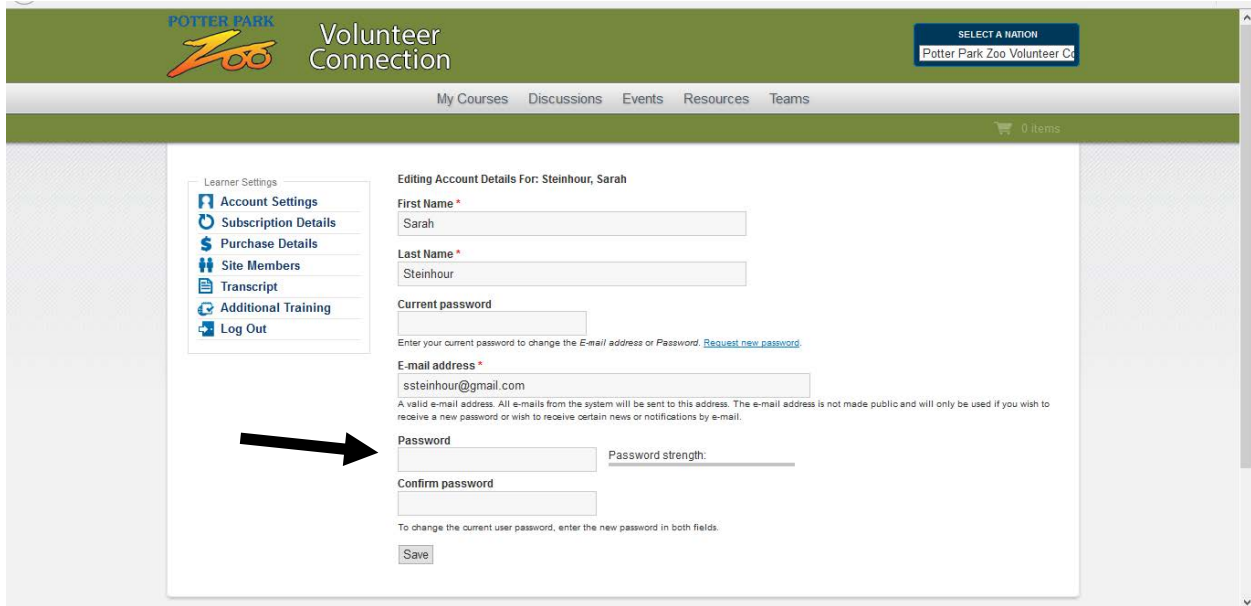

Changing Your Password

Click on **Account Settings** on the left side bar:

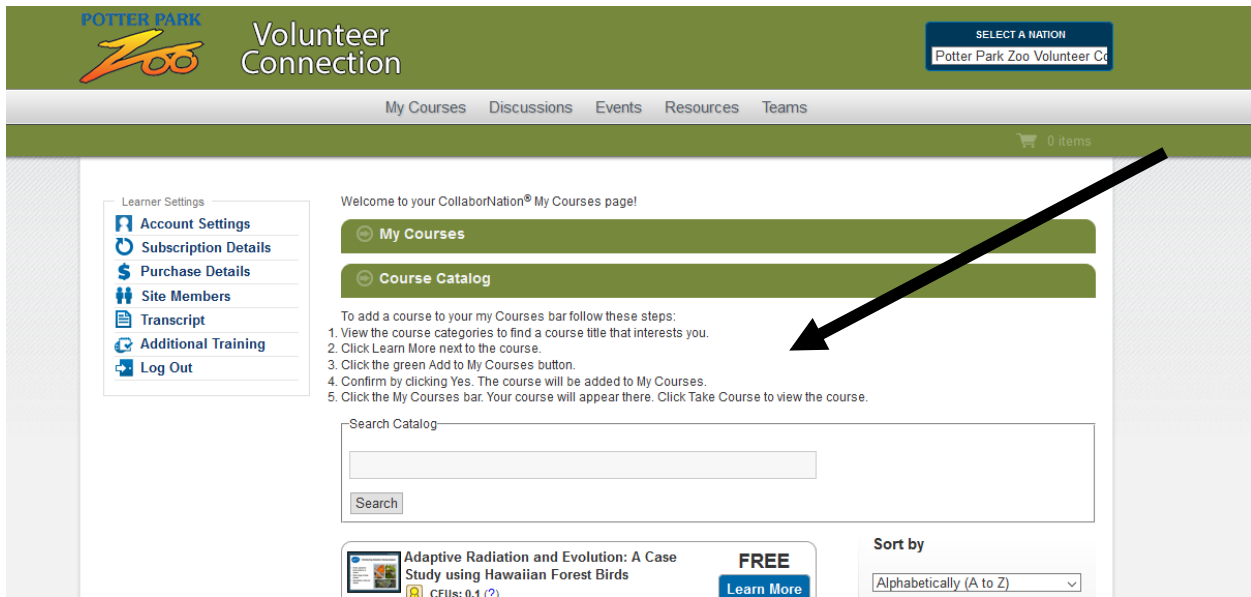

The following screen will appear and can be used to specify a new password:

Using My Courses

The **My Courses** Page can be used to enroll in courses using the directions noted under **Course Catalog**:

Step 1: View the course categories to find a course title that interests you.

The screenshot shows the Potter Park Zoo Volunteer Connection website. At the top, there is a green header with the logo and navigation links. Below the header, a navigation bar contains links for My Courses, Discussions, Events, Resources, and Teams. A shopping cart icon shows 0 items. A green notification bar at the top left states "Log in successful for Sarah Steinhour." Below this, there is a "Learner Settings" sidebar with links for Account Settings, Subscription Details, Purchase Details, Site Members, Transcript, Additional Training, and Log Out. The main content area is titled "Welcome to your CollaborNation® My Courses page!" and includes a "My Courses" bar and a "Course Catalog" bar. A search bar is present with a "Search" button. Below the search bar, a list of courses is displayed, each with a thumbnail, title, "FREE" label, and "Learn More" button. The courses listed are: Adaptive Radiation and Evolution: A Case Study using Hawaiian Forest Birds (CEUs: 0.1), Additional Registration Information (CEUs: 0), Adult and Child CPR (CEUs: 0.1), Affirmative Action: Small Business Development - Title VI (CEUs: 0.02), American Heart Association Emergency First Aid (CEUs: 0.03), Americans With Disabilities Act and Transition Plans (CEUs: 0.1), An Introduction to Working with Volunteers (CEUs: 0.1), Animal Show Development (CEUs: 0.1), and Animal Welfare (CEUs: 0.25). On the right side, there is a "Sort by" dropdown menu set to "Alphabetically (A to Z)" and a "Browse by Category" sidebar with a scrollable list of categories including All, Live Training, Agricultural Safety, Animal Care Training, Animal Welfare, Automotive / Driver Safety, Back Injury Prevention, Business Professional Development, Chemical Safety, Chemicals & Hazardous Materials, Chemicals Hazardous Materials & Gases, Child Care, Communication, Compliance and Human Resources, Computers and Software, Construction, Consumer Research, Customer Service and Sales, and Development and Fundraising. A black arrow points to the "Browse by Category" section.

For example, choose **Zoo and Aquarium** (at the bottom of the list) for the following display of courses:

The screenshot shows the 'My Courses' page on the Potter Park Zoo Volunteer Connection website. The page features a navigation menu at the top, a 'Learner Settings' sidebar, and a main content area with a search bar and a list of courses. Each course card includes a thumbnail, title, 'FREE' status, and a 'Learn More' button. The list is paginated, with page numbers 1 through 6 visible at the bottom. An arrow points to these page numbers.

Scroll through the offerings using the page numbers at the bottom of the list.

Step 2: Click **Learn More** next to the course (example—the Bioinspiration course near the bottom of the first page of Zoo and Aquarium search results)

This is a close-up of a course card from the list. The card displays a thumbnail, the course title 'Bioinspiration: A Novel Activity to Engage Students in Creativity and STEM', a 'FREE' label, and a blue 'Learn More' button. An arrow points directly to the 'Learn More' button.

The following screen will appear:

Bioinspiration: A Novel Activity to Engage Students in Creativity and STEM

Ornilux Bird Protection Glass

- What we see
- What the bird sees

Price: FREE **CEUs: 0.1** (What is a CEU?)

Clock Hours: 1Hr
(approximate amount of time it will take to finish this course)

Description
Bioinspiration, also known as biomimicry, is an interdisciplinary process in which biological principles and elements are studied in order to draw analogies to be applied to human innovation. We will first define bioinspiration through examples of past successes. Next, we will discuss why conservation organizations like San Diego Zoo Global are interested in this field and how conservation may benefit from the involvement of engineers and industry. Participants will enjoy an adaptation tour of some of San Diego Zoo Global's diverse plant and animal collections, highlighting examples of how the natural world can inspire engineering. His talk will include an interactive exercise to help stimulate creative thinking based around bioinspiration.

Add to My Courses

Step 3: Click the green **Add to My Courses** button.

Step 4: Click the **My Courses** bar. Your course will appear there. Click **Take Course** to view the course.
